Question 1

0 / 0 pts

I have read the [ASU Student Academic Policy \(https://provost.asu.edu/academic-integrity/policy\)](https://provost.asu.edu/academic-integrity/policy) and certify that all assignments submitted in this course and throughout my program (including papers, presentations, discussion board posts, quizzes, tests, exams, and laboratory work) will be my own original work and that any any words, ideas, or data from other people that I include in my work will be properly attributed to their sources. I understand that I am not allowed to resubmit assignments previously submitted for a grade in another course or in a different section of this course. I understand my written work may be submitted for analysis by anti-plagiarism software and may be archived to prevent future academic policy violations.

The ASU Student Academic Policy states the student obligation policy as follows:

Each student must act with honesty and integrity, and must respect the rights of others in carrying out all academic assignments. A student may be found to have engaged in academic dishonesty if, in connection with any Academic Evaluation or academic or research assignment (including a paid research position), he or she:

1. Engages in any form of academic deceit;

2. Refers to materials or sources or uses devices (e.g., computer disks, audio recorders, camera phones, text messages, crib sheets, calculators, solution manuals, materials from previous classes, or commercial research services) not authorized by the instructor for use during the Academic Evaluation or assignment;
3. Possesses, reviews, buys, sells, obtains, or uses, without appropriate authorization, any materials intended to be used for an Academic Evaluation or assignment in advance of its administration;
4. Acts as a substitute for another person in any Academic Evaluation or assignment;
5. Uses a substitute in any Academic Evaluation or assignment;
6. Depends on the aid of others, including other students or tutors, in connection with any Academic Evaluation or assignment to the extent that the work is not representative of the student's abilities;
7. Provides inappropriate aid to another person in connection with any Academic Evaluation or assignment, including the unauthorized use of camera phones, text messages, photocopies, notes or other means to copy or photograph materials used or intended for Academic Evaluation;
8. Engages in Plagiarism;
9. Uses materials from the Internet or any other source without full and appropriate attribution;
10. Permits his or her work to be submitted by another person in connection with any Academic Evaluation or assignment, without authorization;
11. Claims credit for or submits work done by another;
12. Signs an attendance sheet for another student, allows another student to sign on the student's behalf, or otherwise participates in gaining credit for attendance for oneself or another without actually attending;
13. Falsifying or misrepresenting hours or activities in relationship to an internship, externship, field experience, clinical activity or similar activity; or
14. Attempts to influence or change any Academic Evaluation, assignment or academic record for reasons having no relevance to academic achievement.

As described in the policy, the possible sanctions include, but are not limited to, appropriate grade penalties, course failure (indicated on the transcript as a grade of E), course failure due to academic dishonesty (indicated on the transcript as a grade of XE), loss of registration privileges, disqualification and dismissal.

Correct!☒ Agree☐ Disagree**Question 2****0 / 0 pts**

I have read and agree to the [Ira A. Fulton Schools of Engineering Honor Code](https://engineering.asu.edu/honor-code/) [\(https://engineering.asu.edu/honor-code/\)](https://engineering.asu.edu/honor-code/).

Ira A. Fulton Schools of Engineering Honor Code

As a student in the Ira A. Fulton Schools of Engineering, I take pride in my integrity, professionalism and teamwork; I behave honorably and ethically in all my work as a member of the ASU community; and I encourage and support my fellow Fulton Schools students to do the same. The ethical standards I follow as a student prepare me to follow the ethical standards of my chosen profession.

Ethics in Engineering

Given the profound impact of engineering on public health, safety and welfare, I recognize the great importance of ethics to the engineering profession. I further recognize that integrity and ethical behavior as an engineer are directly linked to academic integrity and ethical behavior as an engineering student. In recognition of this statement, all students should strive to adhere to each of these principles:

1. Seek out, acquaint myself with, and obey the instructor's rules concerning the materials I am allowed to use and the types of collaboration in which I am permitted to engage in each of my courses.
2. Help my fellow engineering students to succeed both academically and professionally, while both following the instructor's guidelines on collaboration and encouraging my classmates to behave ethically.
3. Ensure that all of my individual work products reflect my own abilities and not those of someone else. I will never copy the work of others or give others the opportunity to copy mine.

4. Contribute a fair share of work to all teamwork in which I participate, and acknowledge the contributions of others. I will accept responsibility for the integrity of all work submitted by my team.
5. Use only aids authorized by the instructor during all examinations, quizzes, projects, assignments and other evaluations.
6. Provide aid to, or receive aid from other students only as permitted by the instructor.
7. Give full credit to others for their words and ideas, whether directly quoted or paraphrased, using proper citation practices in all of my work, including text, figures and computer code, and all materials obtained from the Internet.
8. Never act dishonestly including lying, cheating, stealing, or attempting to corrupt the academic enterprise in any way.
9. Ensure that all data I record or report are objective, true, accurate and properly documented.
10. Treat all students, faculty and staff with respect, courtesy and dignity, the way I would like to be treated myself.
11. Recognize that it is how I act when no one else is watching that defines my true character.
12. Act at all times with integrity, as the true professional that I am to become.
